MANAGEMENT REPORT

Fund manager's comment on EfTEN Real Estate Fund 5 annual report

The EfTEN Real Estate Fund 5 usaldusfond is an investment property fund that invests in commercial investment property that generates cash flow, established in November 2021. As of 31.12.2023, the Fund has one subsidiary in Lithuania, which owns the Saltoniskiu office building in Vilnius. The Fund has signed binding contracts for raising capital in the total amount of 32.9 million euros. As of 31.12.2023, the Fund can raise capital for investments in the total amount of 19.9 million euros.

Financial overview

The consolidated sales revenue of EfTEN Real Estate Fund 5 (hereinafter referred to as the "Fund") in 2023 was a total of 1.8 million euros (2022: 2.0 million euros). The total net rental income (NOI) in 2023 was 1.7 million euros (2022: the same). The fund's consolidated net loss is a total of 0.2 million euros (2022: net profit 2.8 million euros), including the loss from the change in the value of Investment property in the amount of 1.02 million euros (2022: profit 2.18 million euros).

	2023	**11.11.2021-31.12.2022**
€ millions		
Rental revenue, other fees from investment properties	1.765	2.027
Expenses related to investment properties, incl. marketing costs	-0.072	-0.334
Net rental income	**1.693**	**1.693**
Net rental income margin	*96%*	*84%*

Liquidity ratio (current assets / current liabilities)	1.6	1.8
DSCR (EBITDA/ (interest expenses + scheduled loan payments))	1.3	2.2

Investment property portfolio

The Group invests in commercial investment property. As of the end of 2023, the Group has 1 (31.12.2022: same) commercial investment properties, the fair value of which on the balance sheet date is 26.670 million euros (2022: 27.220 million euros) and the acquisition cost is 27.689 million euros (2022: 25.037 million euros). The Group regularly evaluates the investment property twice a year - in June and December. The investment property appraiser of the Group is Colliers International Advisors OÜ.

As of 31.12.2023 the Fund's subsidiary has made the following real estate investment:

Investment property	Location	Group's ownership	Acquisition cost, € thousands	Fair value of investment property € thousands	Net leasable area	Projected annual net rental income, in € thousands	Direct yield [1]	Primary net yield [2]	Utilization, %	Average length of rental agreements	Number of tenants
Saltoniskiu office building	Vilnius, Lithuania	100	27,689	26,670	8,449	1,739	6.3%	6.5%	100	3.0	15
Total real estate portfolio			**27,689**	**26,670**	**8,449**	**1,739**	**6.3%**	**6.5%**	**100**	**3.9**	**15**

[1] The direct yield on investment property is the ratio of the actual net rental income (calculated for 12 months) to the acquisition cost of investment property and subsequent capitalized expenses as of 31.12.2023.

[2] The primary net yield of investment property is the ratio of the actual net rental income (calculated for 12 months) to the fair value of investment property as of 31.12.2023.

The Group's independent valuer, Colliers International, carried out a standard valuation process for the Saltoniskiu office building in December 2023. Compared to 2022, the discount rate used in the evaluations has increased from 8.4% to 9.3%, and the exit productivity from 6.0% to 6.25%. The increase in the discount rate is related to the growth of the EURIBOR in 2023. The Group suffered a total loss of 1.019 million euros in 2023 from the decline in the value of investment property.

Net asset value

As of 31.12.2023 the net asset value of the Fund is 14.05 million euros (31.12.2022: 14.25 million euros). The net asset value of the Fund decreased in 2023 due to the decrease in the fair value of investment property.

As of 31.12.2023 the Fund has 16 investors. The owners of more than 10% of the Fund are listed in the table below:

Investor	31.12.2023
EfTEN United Property Fund	36.47%
LHV pension funds	27.96%
Swedbank pension funds	16.11%

Other information

Risk related to military activities

In February 2022, Russia started a war in Ukraine. In this regard, most countries-imposed sanctions that have a significant negative impact on the Russian economy. To the best of our knowledge, there are no tenants primarily related to business activities in Russia or Ukraine on the rental premises of investment property belonging to the group. Therefore, the impact of the direct or so-called first round realization of the risk on the financial results of the Group is small. In connection with the imposed sanctions, the so-called risk may gradually appear over time. the effects of the realization of the second round, especially increasing the probability of realization of market risk, refinancing and interest risk and liquidity risk.

Financial risks

Information regarding the Group's financial instruments and financial risk mitigation objectives, as well as risks related to changes in interest rates, is provided in Note 16 of the consolidated annual accounts.

The structure of the consolidation group is presented in Note 1 of the consolidated annual accounts.

Management

Usaldusfond EfTEN Real Estate Fund 5 was registered in the commercial register in November 2021, after which the Fund started its operations.

According to the management agreement and the Fund's partnership agreement, the fund's fund manager is EfTEN Capital AS. EfTEN Capital AS has been issued an alternative fund manager's license by the Financial Supervision Authority.

The Management Board of the Fund's general partner (EfTEN Viies GP OÜ) has 2 members: Viljar Arakas and Tõnu Uustalu, and during the reporting period there were no changes in the Management Board. The Management Board of the general partner supervises the activities of the management company related to the fund and the activities of the depositary to the extent and pursuant to the procedure prescribed in the depositary agreement, as well as performs other tasks arising from the partnership agreement.

Applying sustainability principles to investing

Information regarding compliance with the SFDR regulation is disclosed in the Note on page 32 of this report, and the fund's sustainable investment principles are disclosed on the Fund's website at www.eften.ee.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

1 General information

EfTEN Real Estate Fund 5 usaldusfond (hereinafter also referred to as the 'Fund') is a real estate fund established in November 2021 that invests in cash-generating commercial investment property.

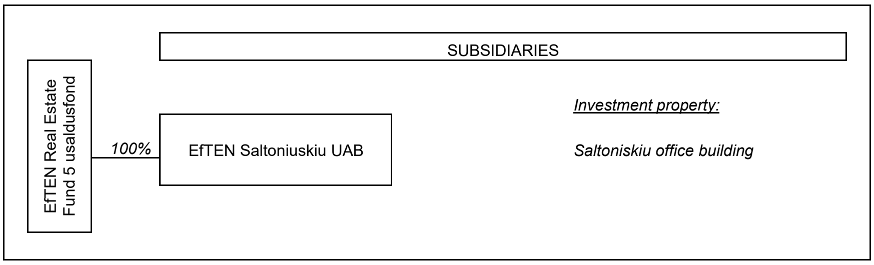
The fund is a closed-end, alternative investment fund and the investment region is the Baltic States.

The fund's investment activities are managed by EfTEN Capital AS. The general partner of the fund is EfTEN Viies GP OÜ.

EfTEN Real Estate Fund 5 usaldusfond consolidated financial statements for the financial year ended 31.12.2023 have been signed by the Management Board on March 8, 2024.

The fund is a company registered and operating in Estonia.

The structure of EfTEN Real Estate Fund 5 usaldusfond Group as at 31.12.2023 is as follows (see also Note 3):



2 Statement of compliance and general basis for the preparation of the consolidated accounts

According to the Investment Funds Act and the Regulation of the Minister of Finance no. 8 Requirements for the Fund's Consolidated Financial Statements to be Disclosed (adopted on 18 January 2017) the accounting policies and disclosures set out in International Financial Reporting Standards (IFRS) as adopted by the European Commission, taking into account the procedure for determining the net asset value of the fund provided for in the regulation established on the basis of subsection 54 (11) of the Investment Funds Act and other specifications set out in the above Regulation. The requirements provided for in the Accounting Act have also been considered.

The EfTEN Real Estate Fund 5 trust fund and its subsidiary's consolidated annual financial statements have been prepared based on International Financial Reporting Standards (IFRS), as adopted by the European Union.

The annual financial statements of the group are presented in thousands of euros.

The financial statements have been prepared using the acquisition cost method, unless otherwise stated (for example, investment property is recorded at fair value).

The report has been prepared based on the principle of business continuity.

2.1 Changes in accounting policies and presentation

1.2.1 Application of new or revised standards and interpretations

From January 1, 2023, the following new or revised standards and interpretations became mandatory for the Group:

Amendments to IAS 1 and IFRS Practice Statement 2: Disclosure of Accounting policies
(Effective for accounting periods beginning on or after January 1, 2023)

IAS 1 was amended to require companies to disclose their material accounting policy information rather than their significant accounting policies. The amendment provided the definition of material accounting policy information. The amendment also clarified that accounting policy information is expected to be material if, without it, the users of the financial statements would be unable to understand other material information in the financial statements. The amendment provided illustrative examples of accounting policy information that is likely to be considered material to the entity's financial statements. Further, the amendment to IAS 1 clarified that immaterial accounting policy information need not be disclosed. However, if it is disclosed, it should not obscure material accounting policy information. To support this amendment, IFRS Practice Statement 2, 'Making Materiality Judgements' was also amended to provide guidance on how to apply the concept of materiality to accounting policy disclosures.

The group has taken the new requirements into account when preparing this annual report.

Amendments to IAS 8: Definition of Accounting Estimates

(Effective for accounting periods beginning on or after January 1, 2023)

The amendment to IAS 8 clarified how companies should distinguish changes in accounting policies from changes in accounting estimates.

The above-mentioned changes did not have a significant impact on the Group's financial statements.

Deferred tax related to assets and liabilities arising from a single transaction – Amendments to IAS 12

(Effective for reporting periods beginning on or after January 1, 2023.)

IAS The amendments to IAS 12 specify how to account for deferred tax on transactions such as leases and decommissioning obligations. In specified circumstances, entities are exempt from recognizing deferred tax when they recognise assets or liabilities for the first time. Previously, there had been some uncertainty about whether the exemption applied to transactions such as leases and decommissioning obligations – transactions for which both an asset and a liability are recognised. The amendments clarify that the exemption does not apply and that entities are required to recognise deferred tax on such transactions. The amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.

The above-mentioned changes did not have a significant impact on the Group's financial statements.

The standards will come into force in the following reporting periods and standards not yet adopted

Classification of liabilities as current or non-current, deferral of effective date – Amendments to IAS 1

(Effective to reporting periods beginning on or after January 1, 2024; not yet adopted by the European Union)

These amendments clarify that liabilities are classified as either current or non-current, depending on the rights that exist at the end of the reporting period. Liabilities are non-current if the entity has a substantive right, at the end of the reporting period, to defer settlement for at least twelve months. The guidance no longer requires such a right to be unconditional. The October 2022 amendment established that loan covenants to be complied with after the reporting date do not affect the classification of debt as current or non-current at the reporting date. Management's expectations whether they will subsequently exercise the right to defer settlement do not affect classification of liabilities. A liability is classified as current if a condition is breached at or before the reporting date even if a waiver of that condition is obtained from the lender after the end of the reporting period. Conversely, a loan is classified as non-current if a loan covenant is breached only after the reporting date. In addition, the amendments include clarifying the classification requirements for debt a company might settle by converting it into equity. 'Settlement' is defined as the extinguishment of a liability with cash, other resources embodying economic benefits or an entity's own equity instruments. There is an exception for convertible instruments that might be converted into equity, but only for those instruments where the conversion option is classified as an equity instrument as a separate component of a compound financial instrument.

The group will analyse and disclose the impact of the said change after its implementation.

Amendments to IFRS 16 Leases: Lease Liability in a Sale and Leaseback

(Applicable to accounting periods beginning on or after January 1, 2024; not yet adopted by the European Union)

The amendments relate to the sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments require the seller-lessee to subsequently measure liabilities arising from the transaction and in a way that it does not recognise any gain or loss related to the right of use that it retained. This means deferral of such a gain even if the obligation is to make variable payments that do not depend on an index or a rate.

The group will analyse and disclose the impact of the said change after its implementation.

Amendments to IAS 7 Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Financial Arrangements

(Applies to accounting periods beginning on or after January 1, 2024; not yet adopted by the European Union)

In response to financial statement users' concerns about insufficient or misleading disclosure of financing arrangements, the IASB issued amendments to IAS 7 and IFRS 7 in May 2023 to require disclosure of supplier finance arrangements. These changes require disclosure of financial arrangements with corporate suppliers that would allow users of financial statements to assess the impact of those arrangements on the company's liabilities and cash flows and the company's liquidity risk. The purpose of the additional disclosure requirements is to increase the transparency of suppliers' financial arrangements. The changes do not affect the recognition or measurement principles, only the disclosure requirements. The new disclosure requirements will take effect for reporting periods beginning on or after January 1, 2024.

The group will analyse and disclose the impact of the said change after its implementation.

Sale or Contribution of Assets between an Investor and its Associate or Joint Venture - Amendments to IFRS 10 and IAS 28
(Effective date to be determined by the IASB; not yet adopted by the European Union)

These amendments address an inconsistency between the requirements in IFRS 10 and those in IAS 28 in dealing with the sale or contribution of assets between an investor and its associate or joint venture. The main consequence of the amendments is that a full gain or loss is recognised when a transaction involves a business. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are held by a subsidiary.

The group will analyse and disclose the impact of the said change after its implementation.

2.2 Summary of the material accounting principles

Management's critical estimates and judgements

The presentation of consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union requires management to make judgments and make decisions that affect the principles and values of the recognition of assets and liabilities at the balance sheet date, the way in which contingent assets and liabilities are presented based on the probability of their realization, and revenues and expenses in the reporting period.

Although estimates and underlying assumptions are reviewed on an ongoing basis and they are based on historical experience and expectations of future events that are believed to be reasonable under the circumstances, actual results may differ from the estimates.

Information about management's critical judgements and estimates that have a material effect on the amounts reported in the financial statements is provided below.

Estimation uncertainty

The estimates made by management are based on historical experience and the information that has become available by the date of preparation of the financial statements. Therefore, there is a risk with the assets and liabilities presented at the balance sheet date, and the related revenue and expenses, that the estimates applied need to be revised in the future. The areas where there is a higher risk of need for revision due to high uncertainty of the estimates, are described below.

a) Investment property: determination of the fair value

Investment property is measured at its fair value at each balance sheet date. The Group's investment properties are valued by Colliers International Advisors OÜ. The Group's independent appraiser evaluates investment properties individually using the discounted cash flow method. All the Group's investment property earns rental income, which is why the method used best represents the fair value of the investment property among the alternatives (for example, the comparative method). The cash flow projections for all properties have been updated to determine the fair value, and discount rates and exit productivity have been differentiated depending on the location of the facilities, the technical condition and the risk level of the tenants.

Additional information regarding the assumptions used in the fair value assessment is provided in Note 13.

b) Business combinations and acquisition of assets

Purchases of real estate are generally treated as acquisitions of assets. The management estimates that there is no business combination if the property has individual tenants, the Fund does not acquire any assets or rights other than the property and does not employ any past employees. The Fund does not acquire the business process management know-how of the real estate object but manages all the acquired objects centrally.

Investment company

The management of the Group has assessed its activities to meet the definition of an investment company and considers that EfTEN Real Estate Fund 5 usaldusfond does not meet the definition of an investment company as it has the characteristics of a real estate company rather than a pure investment company. Although investors of EfTEN Real Estate Fund 5 usaldusfond expect both an increase in the value of their assets and a return on their current economic activity, EfTEN Real Estate Fund 5 usaldusfond also carries a significant part of its investment risks that are typical of a typical real estate company.

An investment firm should also make direct investments in companies that are measured at fair value in accordance with IFRS 10. For the parent company of EfTEN Real Estate Fund 5 usaldusfond, the fair value measurement is indirect - the fair value is the value of assets held in subsidiaries of EfTEN Real Estate

Fund 5 usaldusfond, which results in the fair value of the subsidiary not necessarily being the ultimate market price of the subsidiary. The Group also estimates its financial performance on the basis of rental income, profit margins, volume of assets and other financial indicators of the real estate business, which cannot be measured solely by the fair value of the subsidiary.

Segment reporting

The Group allocates raised capital and available resources for investments in accordance with the Group's investment policy, analysing the reasonable allocation of risks by real estate sector.

In disclosing information on segments, the Group adheres to the principles of grouping used in the Group's internal accounting and reporting. Independent business segments are sub-sectors of commercial real estate, which differentiate from one another by type of rented space and have different yield rates (rental income per sqm, acquisition price of one sqm. capitalisation rates).

As of 31.12.2023, the group has one business segment (office) and one geographical segment (Lithuania).

The main indicators used by the management in making business decisions is sales revenue, net operating income (net sales less the cost of sales and marketing costs), EBITDA and operating profit. It is also important to monitor the volume of property investments by segments. The Group analyses all indicators monthly.

Investment in subsidiaries in the parent company's unconsolidated balance sheet

In the separate balance sheet of the parent company (presented in Note 19), the investments in subsidiaries are measured at fair value.

Revenue recognition

The group's sales revenue includes rental income, management fees, marketing fees and the profit from intermediation of utility and administrative expenses (revenues are offset against related expenses).

Lease income from operating leases is recognized on a straight-line basis over the lease term. If the Group agrees with the tenants on the lease-free period, the said expense is also recognized on a straight-line basis over the lease term, reducing rental income.

Administrative fees and marketing fees are recognized in the period in which the control over the services is transferred to the customer, i.e. during the service period.

Some management fees may include different service components. In this case, the Group assesses whether they give rise to a number of performance obligations. If such different performance obligations exist, then the total transaction fee is allocated to each performance obligation to execute on the basis of a separate selling price. If there is no separate selling price, it is derived from the expected cost-plus margin.

In the resale of utility and administrative costs, the Group acts as an agent, therefore such revenues are not shown in the gross amount but are offset against the associated cost.

Financial assets

Impairment of financial assets

The group estimates the expected credit loss of debt instruments reflected in the adjusted acquisition cost based on future information. The applied impairment methodology depends on whether the credit risk has increased significantly.

For trade receivables and contract assets without a significant financing component the Company applies a simplified approach permitted by IFRS 9 and measures the allowance for impairment losses at expected lifetime credit losses from initial recognition of the receivables.

As of December 31, 2023 and December 31, 2022, all financial assets of the Group were classified in the category:

- cash and cash equivalents;
- short-term deposits;
- trade receivables.

Investment property

Investment property is property (land or a building or both) held or developed to earn rental income or for capital appreciation rather than for use in the production or supply of goods or services for administrative purposes. In addition, investment property includes properties, which are held over an extended period for an undetermined future use.

An investment property is initially recognised in the balance sheet at cost, including any directly attributable expenditure (e.g. notary fees, property transfer taxes, professional fees for legal services, and other transaction costs without which the transaction would not have taken place). After initial recognition, investment property is measured at fair value at each balance sheet date.

The fair value of investment property is determined based on the valuation performed by qualified appraisers. The discounted cash flow method is used to determine the fair value. In order to find the value of the discounted cash flows, the appraiser must forecast the future rental income of the real estate object (including rent per 1 m2 and the occupancy of the rental space) and operating expenses. Depending on the ease and possibility of terminating the leases by the lessees, the appraiser chooses either existing cash flows or cash flows that exist on average in the market for analysis. Also, to find the present value of the net cash flow, an appropriate discount rate must be chosen that best expresses market trends in the current value of money and the specific risks associated with the asset. The average capital structure of the market is used as the basis for choosing the discount rate. The discounted cash flow method is used to determine the value of properties with a stable rental flow.

Tangible assets

Property, plant, and equipment are initially considered at their acquisition cost, which consists of the purchase price and expenses directly related to acquisition, which are necessary to bring the asset to its working condition and location. Property, plant, and equipment are recorded in the balance sheet at their acquisition cost, less accumulated depreciation and possible impairment losses.

The straight-line method is used to calculate depreciation. The depreciation rate is determined for each object of fixed assets separately, depending on its useful life. The ranges of useful lives for groups of property, plant, and equipment are as follows:

Other property, plant, and equipment 5-7 years

Furniture 5-7 years

Office equipment 3 years

If there are signs that the life or final value of the asset has changed significantly, changes are made to the depreciation of the asset prospectively.

Financial liabilities

All financial liabilities (trade payables, borrowings, accrued expenses, bonds issued and other current and non-current liabilities) are initially measured at cost that also includes all directly attributable expenditure incurred in the acquisition. Subsequent measurement is at amortised cost (except for financial liabilities acquired for the purpose of resale that are measured in fair value).

Income tax

Parent company

The fund is registered as a trust fund under the Investment Funds Act. The trust fund is a tax-transparent company under the Income Tax Act, which is why the trust fund is not considered a taxable person. Tax-transparency means that income received from the Fund's subsidiaries is attributed directly to the Fund's investors and is taxed as if they had earned income directly from the subsidiaries. The income of the subsidiaries of the Fund is taxed in accordance with the tax laws of the country where the subsidiary is located.

Subsidiary in Lithuania

The net profit of companies is taxed with a 15% income tax in Lithuania. Taxable income is calculated from the company’s profit before income tax, adjusted in income tax returns by temporary or permanent income or expense adjustments under the requirements of the local income tax legislation.

For Lithuanian subsidiaries, the deferred income tax assets or liabilities are determined for all temporary differences between the tax bases of assets and liabilities and their carrying amounts at the balance sheet date. Deferred tax assets are recognised in the balance sheet only when it is probable that future taxable profit will be available against which the deductions can be made.

Recognition of deferred income tax liability in consolidated financial statements

The Group's deferred income tax liability arises in the case of companies located in Lithuania, where the profit of the reporting year is taxed. When measuring the deferred income tax liability, the group uses the tax rates that are expected to be applied to the taxable temporary differences in the period in which they are expected to reverse, based on the tax rates in effect at the reporting date.

Paid-in capital

The Fund's investors have made an investment obligation to the Fund and the maximum amount of the obligations is set out in Note 16. According to the agreement between the Fund and investors (partnership agreement), the Fund requires investors to pay the investment obligation as required by submitting a written application to investors. The Fund's investors (limited partners) are liable to the Fund with the maximum investment obligation and, in accordance with the Commercial Code, are liable for the obligations assumed by the Fund up to the maximum amount of the investment obligation. The Management Company (general partner) has also assumed the maximum investment obligation, but pursuant to the Commercial Code, the general partner is liable to the Fund with all its assets. Investors' contributions (limited partners and general partners) are recorded as a liability in the financial statements, as upon liquidation of the Fund there is an obligation to return their proportionate share of the Fund's net assets, investors' contributions to the Fund are not registered as capital and investors' liabilities to the Fund are not identical.

3 Subsidiaries

Company name	Country of domicile	Investment property	The subsidiary's equity, € thousands		Group's ownership, %	
			31.12.2023	31.12.2022	31.12.2023	31.12.2022

Carrying amount of investment property pledged as collateral to borrowings (Note 14)	26,670	27,220

Payments under non-cancellable operating leases	31.12.2023	31.12.2022
€ thousands		
Up to 1 year	1,901	1,657
2-5 years	4,006	3,967
Total	**5,907**	**5,624**

Assumptions and basis for determining the fair value of investment properties

An independent appraiser values the investment property of the Group. The fair value presented in the Group's financial statement as of 31.12.2023 and 31.12.2022 was determined using the discounted cash flow method. The following assumptions have been used to determine fair value:

In 2023:

Sector	Fair value	Valuation method	Estimated rental income per year	Discount rate	Exit yield	Average rent, €
€ thousands						
Office	26,670	Discounted cash flows	1,866	9.3%	6.25%	18.9
Total	**26,670**		**1,866**			

In 2022:

Sector	Fair value	Valuation method	Estimated rental income per year	Discount rate	Exit yield	Average rent, €
€ thousands						
Office	27,220	Discounted cash flows	1,707	8.4%	6.00%	18.2
Total	**27,220**		**1,707**			

Independent expert valuation as to the fair value of investment property is based on the following:

- Rental income: real growth rates and rents under current lease agreements are used;
- Vacancy rate: the actual vacancy rate of the investment properties, considering the risks associated with the property;
- Discount rate: calculated using the weighted average cost of capital (WACC) associated with the investment property;
- Exit yield: based on the estimated level of return at the end of the estimated holding period, taking into consideration the forecasted market condition and risks associated with the property.

Fair value sensitivity analysis

The table provided below illustrates as at 31.12.2023 the sensitivity of the fair value of investment property assessed using the discounted cash flow method reflected in the balance sheet of the Group to the most significant assumptions:

Sector	Fair value	The sensitivity of the estimate		Sensitivity to discount rate and exit yield			
		Revenue +10%	Revenue -10%	Discount rate +50bp	Discount rate -50bp	Exit yield +50bp	Exit yield -50bp
€ thousands							
Office	26,670	*2,780*	*-2,830*	*-540*	*550*	*-1,480*	*1,690*
TOTAL	**26,670**	**2,780**	**-2,830**	**-540**	**550**	**-1,480**	**1,690**

As at 31.12.2022

Sector	Fair value	The sensitivity of the estimate		Sensitivity to discount rate and exit yield			
		Revenue +10%	Revenue -10%	Discount rate +50bp	Discount rate -50bp	Exit yield +50bp	Exit yield -50bp
€ thousands							
Office	27,220	*2,870*	*-2,870*	*-570*	*590*	*-1,640*	*1,950*
TOTAL	**27,220**	**2,870**	**-2,870**	**-570**	**590**	**-1,640**	**1,950**

Level three inputs have been used to determine the fair value of all the investment properties of the Group.

14 Borrowings

As at 31.12.2023, the Group has the following borrowings:

Lender	Country of lender	Loan amount as per agreement (€ thousand)	Loan balance as at 31.12.2023 (€ thousand)	Contract term	Interest rate as at 31.12.2023	Loan collateral	Value of collateral (€ thousand)	Loan balance share of the fund's net asset value
Swedbank	Lithuania	13,500	12,708	06.12.25	5.85%	Mortgage - Saltoniskiu office building	26,670	90.4%

As at 31.12.2022, the Group has the following borrowings:

Lender	Country of lender	Loan amount as per agreement (€ thousand)	Loan balance as at 31.12.2022 (€ thousand)	Contract term	Interest rate as at 31.12.2022	Loan collateral	Value of collateral (€ thousand)	Loan balance share of the fund's net asset value
Swedbank	Lithuania	13,500	13,145	06.12.25	4.34%	Mortgage - Saltoniskiu office building	27,220	92.3%

Additional information on loan obligations is provided in Note 13.

Additional information on debts is provided in Note 16.

16 Financial instruments, management of financial risks

The main financial liabilities of the Group are loan liabilities taken to finance the Group's real estate investments. The Group's balance sheet also includes cash, trade receivables, other receivables, and trade payables.

The table below indicates the distribution of the Group's financial assets and financial liabilities by type of financial instrument.

Carrying amounts of financial instruments

	Notes	31.12.2023	31.12.2022
€ thousands			
Financial assets – loans and receivables measured at amortised cost			
Cash and cash equivalents	11	827	961
Trade receivables	12	57	56
Total financial assets measured at amortised cost		**884**	**1,017**
Financial liabilities measured at amortised cost			
Borrowings	14	12,703	13,137
Trade payables	15	45	81
Tenant security deposits	15	324	321
Accrued expenses	15	6	3
Total financial liabilities measured at amortised cost		**13,078**	**13,542**
Total financial liabilities		**13,078**	**13,542**

The fair value of such financial assets and financial liabilities that are measured at amortised cost, presented in the table provided above, does not materially differ from their fair value.

The risk management of the Group is based on the principle that risks must be assumed in a balanced manner, by taking into consideration the rules established by the Group and by applying risk mitigation measures according to the situation, thereby achieving stable profitability of the Group and growth in the value of shareholder assets. In making new investments, extensive evaluation is undertaken on the solvency of potential customers, duration of lease contracts, possibility of replacing tenants and the risk of increases in the interest rates. The terms and conditions of financing agreements are adjusted to match the net cash flow of each property, ensuring the preservation of sufficient unrestricted cash for the Group and growth even after the financial liabilities have been met.

In investing the Group's assets, the risk expectations of the Group's investors are taken as a basis, therefore, excessive risk-taking is unacceptable and suitable measures need to be applied for the mitigation of risks.

The Group considers a financial risk to be risk that arises directly from making investments in real estate, including the market risk, liquidity risk and credit risk, thus reducing the company's financial capacity or reducing the value of investments.

Market risk

Market risk is the risk of changes in the fair value of financial instruments due to changes in market prices. The group's financial instruments, which are mainly affected by the change in market prices, are loan obligations. The main factor affecting these financial instruments is the interest rate risk.

Interest risk

Interest rate risk is the risk of a change in cash flows of future financial instruments resulting from a change in market interest rates. The change in market interest rates mainly affects the long-term floating interest rate loan commitments taken by the Fund's subsidiaries, where the income from the subsidiary may decrease as a result of rising interest rates.

As of 31.12.2023, the group's loan agreement has been concluded on a floating interest basis with 6 months EURIBOR. The 6-month EURIBOR fluctuated between 2.693% and 4.143% in 2023. All the special conditions of the loan agreement were fulfilled in 2023, despite the increase in interest rates.

Liquidity risk

Liquidity risk arises from potential changes in the financial position, reducing the Group's ability to meet its liabilities in due time and in a correct manner. Above all, the Group's liquidity is affected by the following factors:

- Decrease or volatility of rental income, reducing the Group's ability to generate positive net cash flows;
- Vacancy of rental property;
- Mismatch between the maturities of assets and liabilities and flexibility in changing them;
- Marketability of long-term assets;
- Volume and pace of real estate development activities;
- Financing structure.

The objective of the Group is to manage its net cash flows, so as to not use debt in making real estate investments in excess of more than 60% of the cost of the investment and to maintain the Group's debt coverage ratio in excess of 1.3. As at 31.12.2023, the Group's interest-bearing liabilities accounted for 48% (31.12.2022: same) of cash flow generating investment property and the average debt coverage ratio (DSCR) of the last 12 months was 1.3 (2022: 2,2).

The financing policy of the Group specifies that loan agreements for raising debt are entered into on a long-term basis, also taking into consideration the maximum duration of the lease agreements on these properties.

The table below summarises the information on the maturities of the Group's financial liabilities (undiscounted cash flows):

As at 31.12.2023	Under 1 month	2-4 months	4-12 months	Between 2-5 years	**Total**

Total current liabilities	**-582**	**-558**
Total working capital	**323**	**465**

Credit risk

Credit risk is the risk that the counterparty to a financial instrument will cause a financial loss to the Group by failing to discharge an obligation. The Group is subject to credit risk due to its business operations (mainly arising from trade receivables) and transactions with financial institutions, including through cash on bank accounts and deposits.

The Group's activity in preventing reduction of cash flows due to credit risk and minimising such risk lies in the daily monitoring and guiding of clients' payment behaviour, so that appropriate measures could be applied on a timely basis. In addition, agreements with customers generally provide payment of rent at the beginning of the calendar month, giving sufficient time for monitoring the customers' payment discipline and ensuring existence of sufficient liquidity on bank accounts at the date of annuity payment of financing contracts. For hedging the risk, the Group has entered into a contract with one anchor tenant under which the tenant's financial institution has underwritten rental payments during the entire rent period. Most rent contracts also include the obligation to pay guarantee funds that entitle the Group to cover debts incurred in case of the tenant's insolvency.

The Group's companies generally only enter into rental contracts with parties that have been determined to be eligible for credit. The corresponding analysis of customers is carried out before entering into a rental contract.

If it becomes evident that there is a risk of a tenant becoming insolvent, the Group assesses each receivable individually and decides whether the receivables should be classified as doubtful. In general, receivables that have exceeded the payment term by more than 180 days are classified as doubtful, except in cases where the Group has sufficient certainty as to the collectability of the receivable or there is a payment schedule in place for the payment of the receivables.

Accounts receivables are illustrated by the table below:

	31.12.2023	31.12.2022
€ thousands		
Undue	58	56
doubtful debts	-1	0
Total trade receivables (Note 12)	**57**	**56**

The maximum credit risk of the Group is provided in the table below:

	31.12.2023	31.12.2022
€ thousands		
Cash and cash equivalents (Note 11)	827	961
Trade receivables (Note 12)	57	56
Total maximum credit risk	**884**	**1,017**

The bank account balances presented as part of the cash and cash equivalents of the Group are divided according to the credit ratings of banks (Moody's long-term) as follows:

Rating	31.12.2023	31.12.2022
Aa3	827	961
Total (Note 11)	**827**	961

Capital management

The aim of the Group in capital management is to ensure the Group's going concern status to provide an investment return to shareholders and maintain an optimal capital structure. The group considers loan obligations received as capital and the net value of the Fund's assets belonging to trust and general partners.

The fund invests in subsidiaries whose main cash flow is from investment properties and raises new capital to make investments. The fund invests both directly in the equity of subsidiaries and provides loans to subsidiaries for investments. The required amount of capital is calculated for each investment individually, considering the volume of net cash flows of a specific investment. Upon acquisition of subsidiaries, the Fund invests not less than 40% of the value of the subsidiary's assets in its equity. After the investment has been made, the EBITDA of any real estate generating cash flow of the subsidiary may not be less than 120% of the loan annuity payments (including interest).

Fair value

The valuation methods used to analyse the Group's assets and liabilities measured at fair value have been defined as follows:

Level 1 – quoted prices in active markets;

Level 2 – inputs other than quoted market prices that are observable for the asset or liability, either directly or indirectly;

Level 3 – unobservable inputs at the market.

As at 31.12.2023 and 31.12.2022, the Group does not have any assets at fair value that would be included in the Level 1 group when determining the value. All the Group’s investment properties are stated at fair value and are classified in Level 3 according to the valuation method.

17 Paid-in capital

The balance of the paid-in capital of the group as of 31.12.2023 was 11,400 thousand euros (2022: the same). In December 2022, capital in the amount of EUR 1,600,000 was returned to investors.

As of 31.12.2023, financial responsibility agreements have been concluded between the group and the group's investors, according to which the investors pay a total of 32,900 thousand euros to the group for the acquisition of subsidiaries, i.e., as of the end of the reporting period, it is possible to raise another 19,900 thousand euros of capital from the investors. The consolidated retained profit of the group was 2,653 thousand euros as of 31.12.2023 (31.12.2022: profit 2,845 thousand euros).

The owners of more than 10% of the Group are listed in the table below:

Investors	31.12.2023	31.12.2022
EfTEN United Property Fund	36.47%	36.47%
LHV pension funds	27.96%	27.96%
Swedbank pension funds	16.11%	16.11%

18 Related party transactions

Usaldusfond EfTEN Real Estate Fund 5 considers the following as related parties:

- Members of the Management Board and companies owned by the members of the Management Board of EfTEN Real Estate Fund 5 usaldusfond;

- Employees and companies owned by the employees of EfTEN Real Estate Fund 5 usaldusfond;

- General partner EfTEN Viies GP OÜ;

- persons who own more than 10% of the Fund's paid-in capital;

- EfTEN Capital AS (Fund Manager).

The Group purchased management services from EfTEN Capital AS in the amount of 162 thousand euros (2022: 201 thousand euros), (Note 8). The EfTEN Real Estate Fund 5 usaldusfond did not purchase or sell any other goods or services to other related parties.

The group had no employees during the reporting period. No remuneration was calculated or paid to the members of the Group's Management Board during the reporting period. The members of the Management Board of the group work for EfTEN Capital AS, a company that provides management services to the group, and the expenses related to the activities of the members of the Management Board are included in the management service.

19 Parent company's separate financial statements

Pursuant to the Accounting Act of the Republic of Estonia, information of the annual unconsolidated financial statements (primary statements) of the consolidating entity (Parent Company) shall be disclosed in the notes to the consolidated financial statements. In preparing the primary financial statements of the Parent Company, the same accounting policies have been used as in preparing the consolidated financial statements. The accounting policy for reporting subsidiaries has been amended in the separate primary financial statements disclosed as supplementary information in the annual report in conjunction with IAS 27, Consolidated and Separate Financial Statements.

In the separate primary financial statements of the parent company, which are presented in the notes to these consolidated financial statements, investments in subsidiaries are accounted for using the fair value method.

Total	**14,053**	**14,245**

Independent Auditor's Report

To the Fund unit holders of EfTEN Real Estate Fund 5 usaldusfond

Our opinion

In our opinion, the consolidated financial statements present fairly, in all material respects, the consolidated financial position of EfTEN Real Estate Fund 5 usaldusfond and its subsidiary (together the "Group") as at 31 December 2023, and the Group's consolidated financial performance and consolidated cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

What we have audited

The Group's consolidated financial statements comprise:
- the consolidated statement of comprehensive income for the year ended 31 December 2023;
- the consolidated statement of financial position as at 31 December 2023;
- the consolidated statement of cash flows for the year then ended;
- the consolidated statement of changes in net assets of the fund for the year then ended; and
- the notes to the consolidated financial statements, which include significant accounting policy information and other explanatory information.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We are independent of the Group in accordance with the International Code of Ethics for Professional Accountants (including International Independence Standards) issued by the International Ethics Standards Board for Accountants (IESBA Code). We have fulfilled our other ethical responsibilities in accordance with the IESBA Code.

Reporting on other information including the Management report

The Management Board is responsible for the other information. The other information comprises the Management report and environmental and/or social characteristics of the fund (but does not include the consolidated financial statements and our auditor's report thereon).

Our opinion on the consolidated financial statements does not cover the other information, including the Management report.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

With respect to the Management report, we also performed the procedures required by the Auditors Activities Act. Those procedures include considering whether the Management report is consistent, in all material respects, with the consolidated financial statements and is prepared in accordance with the requirements of the Accounting Act.

Based on the work undertaken in the course of our audit, in our opinion:

- the information given in the Management report for the financial year for which the consolidated financial statements are prepared is consistent, in all material respects, with the consolidated financial statements; and
- the Management report has been prepared in accordance with the requirements of the Accounting Act.

In addition, in light of the knowledge and understanding of the Group and its environment obtained in the course of the audit, we are required to report if we have identified material misstatements in the Management report and other information that we obtained prior to the date of this auditor's report. We have nothing to report in this regard.

Responsibilities of the Management Board and those charged with governance for the consolidated financial statements

The Management Board is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with International Financial Reporting Standards as adopted by the European Union and for such internal control as the Management Board determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Management Board is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management Board either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Board.
- Conclude on the appropriateness of the Management Board's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Did this financial product have a sustainable investment objective?

☐ Yes	☒ No
☐ It made **sustainable investments with an environmental objective:** ___%	☒ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of 100% of sustainable investments
☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy	☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	☒ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
	☐ with a social objective
☐ It made **sustainable investments with a social objective:** ___%	☐ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

EfTEN Real Estate Fund 5 usaldusfond (hereinafter referred to as the Fund) includes several performance indicators and benchmarks in the Fund's documentation. This covers pre-acquisition sustainability performance assessment, sustainable portfolio management for assets acquired and/or (re)developed and reporting to investors. More specifically, the Fund is focused on long-term improvement of green lease management and cost-effective improvement of asset sustainability performance which is measured by life-time improvements in EPC ratings and BREAAM certificates. Currently, the whole portfolio meets the characteristics promoted in the Fund's documentation.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- ***How did the sustainability indicators perform?***

The fund is in its investment phase with a limited portfolio that does not yet merit the full extent of performance measurement. Preparations are being made to validate and measure detailed indicators relevant to the Fund's promoted characteristics. Currently the portfolio is 100% covered with EPC ratings (average: rating C) and 100% covered with BREAAM In Use certificates (average: Very Good).

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The Fund's objectives are Fund life-time improvements of asset environmental and sustainability performance where cost-effectively possible and feasible, while contributing to climate change mitigation and adaptation to the maximum extent possible. Objective fulfillment will be measured by sustainability indicators, sustainability and energy performance certification levels.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

When accounting for avoidance of significant harm to any environmental or social objectives, the Fund relies on the EU Taxonomy "do no significant harm" test for real estate investments. As such, the Fund considers "do no significant harm" conditions fulfilled if the asset's climate mitigation criteria substantially align with the Taxonomy principles.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Fund does not currently account for principal adverse impacts on sustainability factors due to limited data of underlying investments. As the Fund's investment portfolio matures and data becomes available, principal adverse impacts will be reconsidered and accounted for.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

All Fund investments are real estate investments that remain under direct control of the Fund and the Fund's management company.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 01.01.2023-31.12.2023

Largest investments	Sector	% Assets	Country
EfTEN Saltoniskiu UAB	***Real Estate***	***100%***	***Lithuania***

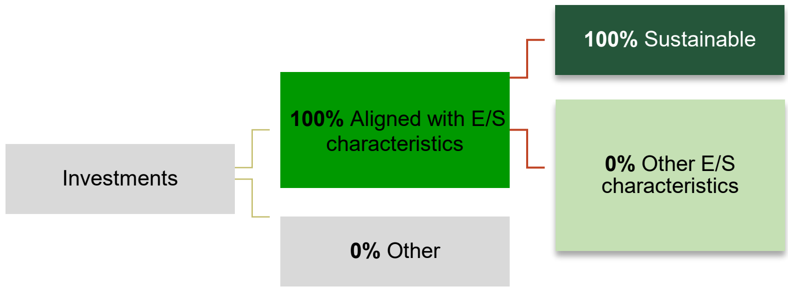
The Fund currently holds 1 asset – EfTEN Saltoniskiu UAB (former Danske office building).

What was the proportion of sustainability-related investments?

All of the Fund's investments follow the criteria established in the Fund's documentation, including eligibility for promoted sustainability related activities. The Fund does not have a minimum level of sustainable investments.

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.



Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **Aligned with E/S characteristics** covers:
- The sub-category **Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

100% of the Fund's investments were made into commercial real estate, specifically an office building.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Currently, 0% of the Fund's investments are fully aligned with the EU Taxonomy and therefore 0% of the Fund's investments' turnover, capital expenditure and operational expenditure can be allocated to Taxonomy-aligned activities.

Taxonomy-aligned activities are expressed as a share of:
- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

No investments were made in transitional and enabling activities.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The Fund does not have a previous reference period for EU Taxonomy alignment comparison purposes.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Currently, 100% of the Fund's investments are considered sustainable with an environmental objective not aligned with the EU Taxonomy. As alignment with the EU Taxonomy was not a prerequisite for investment, assets will instead be assessed and improved over time to allow alignment in the future.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

No other investments were made.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund is currently in its investment stage and as such is focused on sourcing potential investments to fulfill its mandate. During this time every acquired asset is assessed and if necessary, initial capital expenditures for immediate improvements of the asset or amendments to the asset’s tenant portfolio are made. In 2023 the Fund made in the sole property the building management system (BMS) audit and preparations for the installation of automatic AI-based HVAC (heating, ventilation, air conditioning) real time monitoring and control services.
